

1 **WHAT IS CLAIMED IS:**

2 1. An eyelid enhancement kit comprising:

3 a package divided into a first compartment and a second compartment;

4 a first tray received in the first compartment and having a first recess and a
5 second recess respectively defined in a top face of the first tray and a cover covering the
6 first tray;

7 a first eyelid mask and a second eyelid mask sandwiched between the first tray
8 and the cover and respectively received in the first recess and the second recess of the
9 first tray;

10 a second tray received in the second compartment and having a third recess; and
11 an eyelid brush received in the third recess.

12 2. The eyelid enhancement kit as claimed in claim 1, wherein the first tray
13 further has a first cutout defined in the top face of the first tray to communicate with the
14 first recess and a second cutout defined in the top face of the first tray to communicate
15 with the second recess to facilitate accessing the first and second eyelid masks.

16 3. The eyelid enhancement kit as claimed in claim 2, wherein the cover has a
17 first protruding area formed on a bottom face of the cover to correspond to the first
18 recess and a second protruding area formed on the bottom face of the cover to
19 correspond to the second recess so that the first protruding area and the second
20 protruding area are able to be respectively received in the first recess and the second
21 recess to securely sandwich the first eyelid mask and the second eyelid mask inside a
22 combination between the first recess and the first cutout and a combination of the
23 second recess and the second cutout.

24 4. The eyelid enhancement kit as claimed in claim 3, wherein the eyelid brush

- 1 has a rubber cap formed on a distal end of the eyelid brush, bristles formed on one side
- 2 of the eyelid brush and teeth oppositely formed relative to the bristles on the eyelid
- 3 brush.
